What makes an AmeriCorps VISTA Project- and application-Successful?

- 

Clearly shows how the capacity building activities you are proposing directly ties into anti-poverty outcomes in the community you're serving
- 

Includes deliberate engagement of your beneficiary population and communities
- 

Is designed with the end in mind – when will your project become self-sustaining and how? With additional staff? Community volunteers? Partnerships with other organizations and agencies?
- 

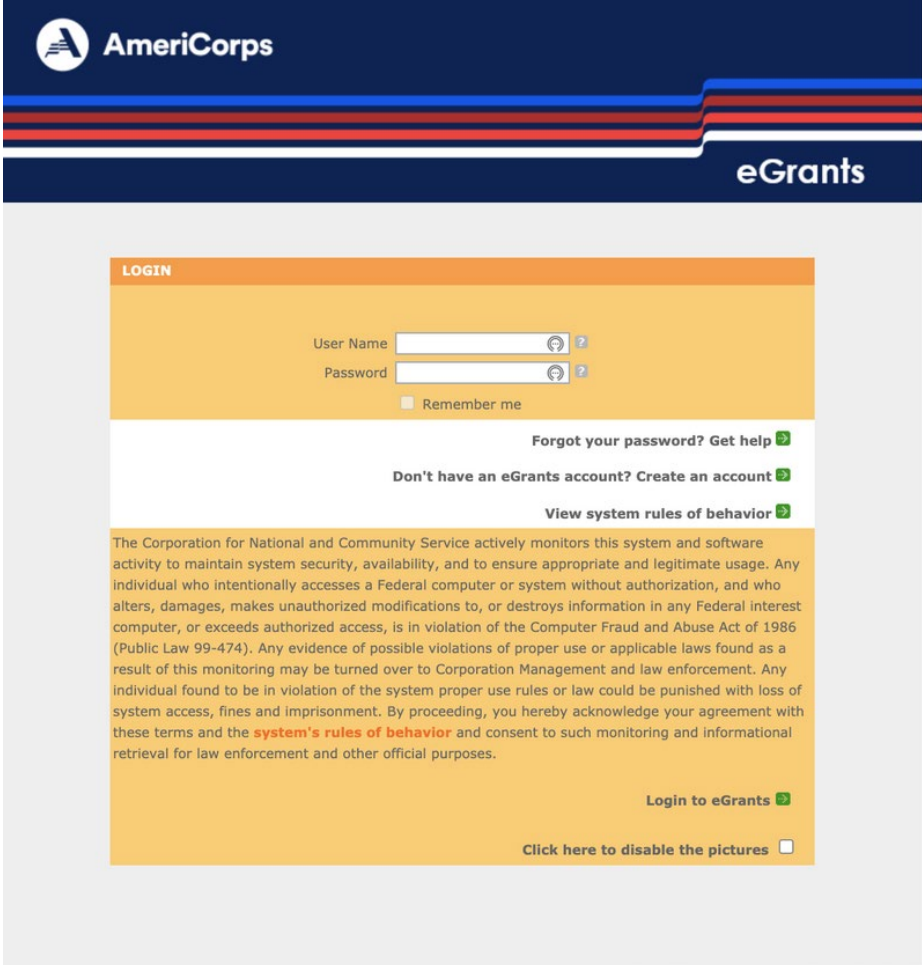

Focuses not only on the project activities but on the development of members. VISTAs may be younger and in need of greater supervisor or they maybe retired community members that can work on their own. As a project director and VISTA Supervisor, you will have to flex your skills to adapt to the people you recruit. It will be worth it in the end!
