	<p>Success Factors (SCF) is a cloud-based human capital management software application that supports core human resource (HR), payroll, talent management, HR analytics, workforce planning, and employee experience management. SCF includes a “performance module” that AmeriCorps uses to complete mid-year and year-end employee performance assessment and review. The employees would self-assess and submit their accomplishments of their federal work performance in SCF which would be reviewed, evaluated, and rated by their supervisors. The system will store the performance evaluation and rating information which would be used further by OHC to factor into personnel decisions such as raises, promotions or disciplinary actions.</p> <p>The application is procured from vendor Carahsoft by the General Dynamics of Information Technology (GDIT) on behalf of AmeriCorps.</p>

6- INVENTORY OF PII	
<b>6-1</b>	<p><b>Provide a list of all the PII included in the system.</b></p> <p>The name, gender, Employee Identification Number (EID) and business email address of AmeriCorps' federal employee are collected.</p> <p>The employee's self-assessment, the supervisor's evaluation and adjustment are entered into the system to complete the process of performance evaluation.</p>

7- CATEGORIES OF INDIVIDUALS IN THE SYSTEM	
<b>7-1</b>	<p><b>Describe the categories of individuals whose PII is in the system and state approximately how many individuals are in each category.</b></p> <p>The category of individuals whose PII is in the system includes:</p> <p>AmeriCorps' federal employees: These individuals log into SCF to complete their mid-year and end-of-year performance evaluation forms. There are approximately 700 total individuals.</p> <p>AmeriCorps federal employees' supervisors: These individuals log into SCF to review the mid-year and end-of-year performance evaluations submitted by their subordinates. Out of the approximately 700 federal employees, there are approximately 200 individuals assigned as supervisors.</p>

8- INFORMATION IN THE SYSTEM	
<b>8-1 A</b>	<p><b>For each category of individuals discussed above: Describe the information (not just PII) collected about that category and how the information is used.</b></p> <p>SCF is used as a personnel performance management tool for AmeriCorps. The name, gender, Employee Identification Number, business email address, self-assessment of AmeriCorps federal employee and their supervisor's evaluation are collected and maintained in the system.</p> <p>AmeriCorps provides all its federal employees with a URL to SCF website and the AmeriCorps ID for them to log in to SCF by using their username and password. Within the system, AmeriCorps employees are only able to access their own information and records. The supervisors are able to view information of their subordinates only.</p> <p>The Work Force Relations (WFR) staff of the Office of Human Capital (OHC) or SCF site administrator are authorized to access the information within the system to process the performance evaluation.</p>
<b>8-1 B</b>	<p><b>State whether the system derives new data, or creates previously unavailable data, about an individual via aggregation of information or other means. Explain why, how it is related to the purpose of the system, how it is used, and with whom it is shared.</b></p>

	Not Applicable
<b>8-1 C</b>	<b>If the system uses commercial or publicly available data, explain why, how it is related to the purpose of the system, and how it is used.</b>
	Not Applicable
<b>8-1 D</b>	<b>Describe any application of PII redaction, mask, anonymization, or elimination.</b>
	There is no PII redaction, masking anonymization or elimination.
<b>8-1 E</b>	<b>Describe any design that is used to enhance privacy protection.</b>
	Access controls and safeguards are in place to approve and grant access to the system to only AmeriCorps staffs who have a need to know.

9- COLLECTIONS OF PII INTO THE SYSTEM	
<b>9-1</b>	<b>Describe for each source of PII in the system:</b> <ol style="list-style-type: none"> <li>a. The source.</li> <li>b. What comes from that source.</li> <li>c. How the PII enters the system.</li> </ol>
	<p>The name, gender, Employee Identification Number (EIN) and business email address of AmeriCorps employees are derived from an OHC internal payroll roster called the Comp Data Report which is updated and uploaded into SCF each pay period.</p> <p>The performance self-evaluation information is from the employees. The supervisors' evaluation of the employee is entered by the supervisors.</p>
<b>9-2</b>	<b>If any PII comes directly from the individual, describe the privacy controls in place. If all PII comes from a secondary source, write <u>Not Applicable</u>.</b>
	<p>The self-evaluation information comes directly from AmeriCorps federal employees. A Privacy Act Statement is posted at the log-in page of SCF, which provides information of the System of Record Notice that covers this system, the options that the individuals can exercise, their privacy rights, how their data privacy is protected, etc.</p> <p>AmeriCorps upload the name, gender, EIN and work email address of AmeriCorps' federal employees into SCF to set up each employee's user account. The information is updated and uploaded bi-weekly (each pay period) from Comp Data Report that ensure all the new employee's information is appropriately captured and entered into SCF timely.</p>
<b>9-3</b>	<b>If PII about an individual comes from a secondary source other than the individual, describe:</b> <ol style="list-style-type: none"> <li>a. Why the PII is collected from the secondary source.</li> <li>b. Why the PII from the secondary source is sufficiently accurate.</li> <li>c. If/how the individual is aware that the secondary source will provide their PII.</li> </ol> <b>If all PII about an individual comes directly from the individual, write <u>Not Applicable</u>.</b>

	<p>The EIN and work contact information is from the Comp Data Report generated by AmeriCorps OHC which documents the employee’s information after onboarding.</p> <p>The Comp Data Report is a roster of AmeriCorps personnel currently on payroll. The roster outlines information such as the employee’s department, office, duty title, and pay grade. This information is utilized by both OHC and the SCF administrator on a need-to-know basis and is pulled from Insight Reporting, – a reporting system of the National Finance Center (NFC) which provides payroll service to AmeriCorps. The information is sufficiently accurate since the employees’ basic identity information and most of the payroll information are provided directly by the employees and subject to constant reviews by both the employees and OHC staff who can timely adjust inaccuracies during the payroll handling process.</p> <p>All individuals are aware that SCF maintains the information outlined above when their account is created. They receive a system generated email and their annual performance forms also have their position information that they can review.</p>
<p><b>9-4</b></p>	<p><b>If any collections into the system are subject to the Paperwork Reduction Act (PRA), identify the Office of Management and Budget (OMB) Control Number for the collection and effective date. If the system does not implicate the PRA, write <u>Not Applicable</u>.</b></p>
	<p>Not Applicable</p>
