This table lists all changes made in previous revisions of this document, beginning with January 2017 to 2022. For the most recent changes, please see the Change Log in the front of the current Operations Handbook. All page numbers are accurate at the time of the original revision. Some content may shift in future revisions.

### Edits Made in Version 2017.1 (January 2017)

Change Number	Chapter and Page Number	Change
1	This change is not related to a specific chapter.	A new method of tracking versions has been implemented, labeling each revision by the calendar year and calendar quarter of the publication. For example, CNCS published this revision in January (Quarter 1) of 2017, so this is Version 2017.1.
2	This change is not related to a specific chapter.	We have combined the appendices of each program’s handbook (the SCP Operations Handbook, FGP Operations Handbook and RSVP Operations Handbook) and introduced a new numbering system. This simplifies the use of appendices for sponsors with multiple programs, allows for greater consistency among the programs, and will enable CNCS to update them quickly and accurately in the future. We have added a new chapter, Chapter 14: Description and List of Appendices, with more information. Internal references to specific appendices have been updated accordingly.
3	This change is not related to a specific chapter.	This change log was added.
4	This change is not related to a specific chapter.	This version contains several formatting changes to allow for more accurate, consistent updates. This includes the formatting of the Preface, the Table of Contents, and page headers.
5	This change is not related to a specific chapter.	The capitalization of the names of the Senior Companion Program and Foster Grandparent Programs have been standardized to include a capital “P.”
6	This change is not related to a specific chapter.	All dates are written out in full, without ordinal suffixes. For example: March 31, not 3/31. Years are included as necessary on a case-by-case basis.
7	This change is not related to a specific chapter.	Several links to the Senior Companion Program Regulations (45 CFR 2551) have been updated.

It also now incorporates relevant information that was previously in a stand-alone memo titled "Senior Corps Insurance Requirements." Specific coverage requirements are now in a new appendix, Appendix A.13.
16	Chapter 10: Grants Management (pg. 74)	The original version of this handbook contained an incorrect statement of the matching requirements for the Senior Companion Program. This was first corrected in a second edition of the handbook published shortly after its original 2017 publication date with a short note after the Table of Contents. This version includes the corrected text. It is noted here for clarity and completeness.

**A Note on Changes Resulting from the Final Rule:**

On December 17, 2018, the [Final Rule](#) for the Foster Grandparent Program (FGP), Senior Companion Program (SCP), and RSVP was posted to the Federal Register. After a 45-day public review period, updated regulations for all three programs became effective on January 31, 2019.

These regulations affect many aspects of program operations described in this handbook. Due to the scope of the changes, it is not practical to identify each change by page number. Instead, the major changes in each chapter are listed below. In addition, the changes in this Handbook focus on compliant, effective practice going forward, so that this document remains relevant in the future. In general, they do not make explicit before-and-after comparisons of regulation prior to and following the effective date of the Final Rule. Additional resources that do focus on this transition are available at Senior Corps' [Final Rule Headquarters](#).

You may suggest additional changes or guidance by emailing [SeniorCorpsHandbooks@cns.gov](mailto:SeniorCorpsHandbooks@cns.gov).

This update also contains some changes that are not directly related to the Final Rule. As a result, the changes below are presented in two sections. The first outlines the changes directly related to the Final Rule. The second contains all other changes.
